Buttons

- for you who love to knit and crochet

Buttons - the last detail

Our collection encompasses classic and elegant buttons, which will allow you to give that personal touch to your knitting projects.

Whether these buttons are destined to a mohair top or for a cardigan in vivid colours or for a cute baby sweater, we gave it our best to find a selection of buttons offering you the possibility to create your own unique look.

Buttons are wonderful accessories and create styling details you had not thought of. There are plenty of possibilities but it is most important that you feel comfortable with your choice of buttons.

So indulge yourself and give your artwork its finishing touch with this last detail.

Classic styles with FINE DETAILS

The "Diamond" buttons have become a favourite, and we understand that quite well. They look exclusive, and together with, for example, a knit top's beautiful pattern, they really add the detail needed to create the personal touch. They are timeless and will always add an elegant finish to all your projects.

MOTHER OF PEARL

The shells of our buttons are from Japan. The shells from Japan are slightly thicker, allowing us to produce buttons that are a bit stronger. They are more durable and show off an even more natural refinement. The one side that is actually the shell – or should I say the back of the button – with its raw surface is the epitome of a rarely seen rustic beauty that only nature can have created. On the top of the button, it is the Mother of Pearl showing off her refined and feminine beauty.

FOR DETAILS

At Go handmade, we love the natural look, and we love to create our own designs.

Buttons - wooden

All wooden buttons are made of wood, as the word indicates, and this means that each button is unique - it represents its own little part of a bigger piece of wood. It is delicately polished in old barrels, which are rotating for hours, and where small untreated wooden beads in nature's own way polishes it all around.

Go handmade's WOODEN BUTTONS

Recently it has become popular to let buttons express personal greetings. A beautiful and memorable way to leave a little signature - for the close and loved ones - a personal message from the one who, for example, knits a cute sweater as a birth gift.

It could be "Made by Grandma" or "Handmade" - both to express the special feelings associated with a handmade article - particularly for a newborn. And maybe this handknit item will be passed on to other children.

VINTAGE BUTTONS

To many "vintage" means something antique and elegant. Same for us, and we were inspired by the Shabby Chic style featuring retro and refined details, often in soft colours.
